## EDUCATION

**Java backend development**

**Masai School (Bengaluru)(Full Time)**

May -2022 - May -2023

**B.com- M.C.B.U Chhaterpur(M.P).**

july-2018 -March2021

**12-Govt.Boys.School  
.garhakota (mp)**

july-2017 -March2018

## TECH SKILLS

- Java
- Spring
- Spring boot
- Hibernate
- JPA
- JDBC
- IntelliJ
- STS
- MySQL
- RDBMS
- Maven
- SQL
- JavaScript
- HTML5
- CSS
- DSA
- VSCode
- GitHub

## SOFT SKILLS

- Critical thinking & Creativity
- Work ethic & Adaptability
- High Productivity
- Problem-Solving
- Management (Time, People & Work)

# KANHAIYA TIWARI

## Java Back End Developer

### PROFESSIONAL SUMMARY

An ambitious, enthusiastic, and well-organized Java Developer with solid knowledge in Hibernate, JPA, RDBMS, LLD, Spring Boot, spring security, etc., and 1200+ hours of coding experience at Masai School. done many backend and frontend projects in Masai like Nico-Park and Course-monitoring-System in the backend, Mysql spring framework java jdbc hibernate, etc. have been used cloned many websites like Gusto, Toggle, etc. using HTML, CSS & JavaScript. for frontend

### PROJECTS

#### Course-monitering-System

Github-link

presentation

course-monitoring-system is an Application Software that is used for the monitoring course this application can be used for monitoring the course, batch, and students it was an individual project created in 5 days

#### Features

- Admin can create a course, batch, and course plan and also can see the list of Couse.

#### Tech Stack

- Java| JDBC | MYSQL

#### Nico-Park

Github-link

presentation

This project is developed by a team of 5 members with the help of the Spring-Boot framework. The main objective of this Web services application is to cater needs of front-end developers to call different types of API as per the requirement.

#### Features

- Customers can sign sign on this website and explore most of the things which is available on in the nico park like they can book activity, and tickeds

#### Tech Stack

- mysql spring-boot maven rest-api lombok swagger hibernate spring-data-jpa java17

#### Area of responsibility

Handled all activity-related problems Like doing all the crud operations related to the activities with the database

#### Achievements

**HackerRank badges in JAVA | MYSQL | Problem-Solving.**

**HackerRank certificates in JAVA | MYSQL | Problem-Solving.**
